

The Scrap Exchange Friends Club

Join the Friends Club and help us keep valuable resources out of the waste stream and put them into the hands of artists, teachers, kids, parents, and creative people everywhere.

The Scrap Exchange collects leftover or unwanted items from hundreds of individuals, businesses, industries, and municipal sources and distributes those materials through our retail store as well as through workshops, parties, and outreach events across the Southeast.

Community support helps us keep our costs low, both for the materials we sell and for the programs we offer. It also supports fundraising efforts by providing a quantifiable indicator of how much we're valued in our local community.

By joining the Friends Club, you provide a base of support that allows us to expand our program offerings and to undertake activities that may or may not be self-sustaining.

Your support enables us to collect more materials and to make them available to you and others like you who believe that "waste is only waste if it's wasted." *

*(One of our favorite quotes from Dan Knapp, founder of the reuse center Urban Ore.)

Support The Scrap Exchange in promoting creativity, environmental awareness, and community through reuse!

Member Benefits
